

ZEROEYES™

Evaluate the Safety of Your Business Site

Are there gaps in your commercial site security plan?

Use this checklist for a plan to protect employees and patrons.

A Checklist that Saves Time. Saves Lives. Saves Revenue.

Unfortunately, a threat only needs to find one entry point, one weak link. In the case of an active shooter, seconds count. For many commercial businesses, the threat is an insider. An employee, former patron, or family member with access to or knowledge of the space.

Most security systems are reactive; alarms go off only after the perpetrator is in. Acoustic gunshot detection only alerts authorities after a shot is fired. Additionally, emergency dispatch often depends on chaotic, conflicting 911 calls from victims to alert authorities.

Misinformation, slow response times, and lack of situational awareness can shut down businesses longer than needed, drive away clients, or even cause damage to physical structures unnecessarily.

Founded by former Navy SEALs and elite technologists, ZeroEyes founders have dedicated our lives to using our experience to give you and your security personnel the technology you need to keep people safe, keep your business open, and avoid unnecessary expenses.

Commercial Safety Checklist

Security planning considerations

<input type="checkbox"/>	Building access control systems
<input type="checkbox"/>	Lock and deterrents for windows and doors
<input type="checkbox"/>	Building design and infrastructure
<input type="checkbox"/>	Exterior vulnerabilities
<input type="checkbox"/>	Alarms and/or monitoring systems
<input type="checkbox"/>	Physical premises vulnerability assessment
<input type="checkbox"/>	Barrier options, including fences and gates
<input type="checkbox"/>	Exterior lighting

<input type="checkbox"/>	Visual obstacles to cameras
<input type="checkbox"/>	Proper camera placement
<input type="checkbox"/>	Visual gun detection technology
<input type="checkbox"/>	Active shooter vs. gun violence response types
<input type="checkbox"/>	Contact protocols
<input type="checkbox"/>	Emergency action and evacuation plans for relevant incidents
<input type="checkbox"/>	Security / regulator compliance
<input type="checkbox"/>	Insurance and asset management

Get in touch with a team member

ZeroEyes has a team of highly trained security specialists who can help you assess security questions and needs. They have deep knowledge of gun violence types, response options, and business environments.
