

Proactive Protection from Gun Violence

A.I.-powered,
human-verified gun
detection software
that **works with
existing video
surveillance
cameras.**

**Save time to
save lives**

Detect brandished guns, verify the firearm, and dispatch an alert in as little as 3-5 seconds.

**Situational
awareness**

Provide authorities and first responders with critical information including location, weapon type, and description.

**Protects data
and privacy**

We detect brandished weapons, not faces, racial data, gender, or clothing. We never store data on detections.

-  Patented technology is verified by humans to ensure no false alerts
-  Serving businesses, schools, and government facilities in most states
-  Department of Homeland Security SAFETY Act Designation
-  Founded, owned, and operated by Navy SEALs veterans

Trusted by Organizations Nationwide

Addressing a Shared Concern

Gun violence impacts us all in several ways

Challenge

Facilities and plants are large, making it difficult to locate and detain threats.

Many active shooter incidents occur outside.

It's hard to get accurate information during an incident due to chaotic conditions.

Solution

First responders get real-time data, including the shooter's geolocation and photograph.

Gun detection software can be installed on indoor and outdoor security cameras.

ZeroEyes provides 24/7/365 human-verified gun detection, alerting local law enforcement in as fast as 3-5 seconds.

Detect illegally-brandished guns outside or inside your facility
