

# Your Duty of Care Is No Longer Optional

## Protect Frontline Teams and Supply Chains Before Tragedy Strikes

Large distribution centers and logistics hubs face growing risks of gun violence, from disgruntled employees to external intruders. The cost of a single violent incident can devastate operations and trigger lawsuits, higher premiums, and loss of contracts.

### The Rising Risk in 3PL & Warehousing

#### Vulnerable Points in Logistics

Warehouses, with open layouts and high employee density, are vulnerable to intrusion and violence.

#### High operational impact

An active shooter incident can halt fulfillment for days or weeks, disrupting supply chains and contracts.

#### Employers are worried for good reason

**53% of employers** are very concerned about workplace violence.

Nearly **1 in 5 (19%)** have already experienced it.

#### Insurance and liability pressures

Carriers scrutinize safety readiness; negligence claims can reach millions.

#### Talent & morale

**47% of employees** say safety impacts their decision to stay. Retention and recruiting suffer when safety is in doubt.

# Proactive Gun Detection That Saves Lives

ZeroEyes is the industry's leading human-verified AI gun detection platform.  
Our mission is simple: **stop shootings before they start.**
